Summary

Full stack web developer with a customer/social services background. Proponent of clean code, creative design and mobile responsive user interface. Currently working on learning additional JavaScript libraries (angular.js, react.js) and doing a deeper dive into back-end frameworks.

Skills

TECHNICAL

- Proficient in several programming languages and frameworks including: HTML, CSS, JavaScript, jQuery, PHP, MySQL, Laravel
- Ability to learn new languages and software as needed
- Proficient with version control using Git/Github

SOFT

- Extensive people and teamwork skills
- Mandt System training (relational and behavioral de-escalation techniques)
- Excellent listener, very open to feedback

WebDev Projects

SHOWUP.ROCKS

- Took on a leadership role as a part of a team to create a full-stack application
- Spearheaded the design and implementation of our database using PHP and MySQL within the Laravel framework
- Used custom CSS to showcase flat design and Bootstrap for mobile responsiveness while creating an intuitive user experience

KITCHEN KWEENDOM

- Worked as a part of a two person team to create an adlister site
- Used Vanilla PHP and MySQL for back end implementation
- Bootstrap, custom CSS, JavaScript and jQuery were used for user interface, styling and mobile responsiveness

SIMPLE SIMON

- Built a functional replica of the 'Simon' game using JavaScript
- Styled using Bootstrap and custom CSS
